

Research Assistant / Associate Cover Letter

44864 Columbus Divide West Susannah, DE 72674-7020

Dear Sutton Bogan,

I am excited to be applying for the position of research assistant / associate. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for research support to the preparation of research products (working papers, technical notes, presentations and others) with a specific focus on health, nutrition, social protection and early childhood development, though support for research activities in other sectors may also be required.

Please consider my experience and qualifications for this position:

- Willingness to learn and develop new techniques
- Creativity and willingness to work with and teach others
- Experience with neurobiological methods (i.e., cortisol genetic data, RSA & PEP, high density EEG/ERP, blood draws, fMRI)
- Knowledge of and familiarity with western U.S. natural resource issues and concerns, including federal land management, rural development, wildfire management and policy, or water management and policy
- A record of publications for both lay and academic audiences
- A record of successful fundraising and grant/budget management
- Presented and published Serious Games research findings at a national level
- History of securing significant foundation or government grants and contracts to support research

Thank you for considering me to become a member of your team.

Sincerely,

Lennox Wisoky
