

Research Associate / Senior Associate Cover Letter

3734 Grady HarborHermanfurt, WI 75242-1221

Dear Riley Jacobson,

I submit this application to express my sincere interest in the research associate / senior associate position.

In my previous role, I was responsible for support in writing protocol-driven research proposals, preclinical and clinical protocols, technical reports, final reports, and peer-reviewed manuscripts.

Please consider my qualifications and experience:

- Conduct research and analysis on factors driving the risk and return of public and private alternative assets, including Private Equity, Real Estate, and Infrastructure
- Conduct research on institutional processes, quantitative techniques, trends in new asset classes and asset management capabilities
- Prepare and deliver clear and well structured reports and presentations for various audiences
- Relevant work experience in investment banking, investment management, pension fund and/or related capital markets roles
- Knowledge of modern portfolio theory, economics and quantitative techniques, financial modeling, valuation and the associated analytics as applied to financial markets research and portfolio construction
- Exposure to or interest in understanding the role of alternative assets in a portfolio context is an asset
- Experience working with systems, databases, programming languages
- CFA/CAIA/FRM or other relevant industry recognized designation considered is considered relevant to this role

Thank you for taking your time to review my application.

Sincerely,
