

Research Associate / Senior Associate Cover Letter

772 Grimes SpringNew Milton, RI 03518-1532

Dear Greer Quigley,

I would like to submit my application for the research associate / senior associate opening. Please accept this letter and the attached resume.

Previously, I was responsible for assistance and consultation on basic research or clinical trials methodologies and statistical analysis issue.

My experience is an excellent fit for the list of requirements in this job:

- Knowledge of qualitative and quantitative research methods with proficiency in an analytical software package such as SPSS, SAS or STATA
- Knowledge of data warehousing concepts is preferred
- Time management skills necessary to keep on-task with multiple project assignments
- Professional or managerial experience in higher education in areas of research, teaching and/or archival services
- Typically possesses experience writing and editing scholarly texts
- Strong exposure and working background related to molecular analytical techniques commonly used in plant molecular biology or equivalent level of education and experience
- Thorough knowledge of BLAST analysis, Vector NTI tools and Primer Express and computer skills and familiarity with statistical methods will be advantageous
- Extensive experience in molecular biology experimental design and application

Thank you for taking your time to review my application.

Sincerely,

Rowan Crooks
