

# Research Director Cover Letter

1683 Echo Crescent East Osvaldo, LA 59840-5668

**Dear Dallas Considine,**

I submit this application to express my sincere interest in the research director position.

In my previous role, I was responsible for recommendations based on quantitative/qualitative research data, to support enhancement and development of existing and new initiatives and assets.

Please consider my qualifications and experience:

- Review and approve Toxicology study protocols, reports, associated nonclinical summaries, Regulatory submission sections and associated documentation, abstracts/manuscripts for publication
- Maintain up-to-date Toxicology plans for all projects/programs/products, including listings of studies, timelines, status and costs
- PhD in a related subject, with DABT certification preferred
- Experience representing function to global regulatory agencies in support of submissions at all stages of development, , IND/CTA, CTD, IMPD, MAA/NDA/BLA/JNDA
- Evidence of leadership within the industry, , such as through peer-reviewed publications or as a participant on expert panels or working groups, is preferred
- Produce industry / role-specific research as necessary
- Produce innovative, thought-leading, impactful, analytically-deep, fact-based research
- Significant applicable experience to be knowledgeable about a particular market or industry and to be accepted by clients as an expert

**Thank you for taking your time to review my application.**

Sincerely,
