

Research Director Cover Letter

9690 Waters Lodge South Rustyton, HI 58049-5503

Dear Phoenix Borer,

In response to your job posting for research director, I am including this letter and my resume for your review.

In my previous role, I was responsible for meaningful market data in support of client needs, including market mapping and other strategic research when relevant.

Please consider my experience and qualifications for this position:

- Knowledge of investment tools and databases
- A passion for and strong established knowledge of sports and statistics, with an emphasis on NFL, college football, and college basketball
- Develop and maintain strong and effective relationships with producers, on-air talent, and other production leadership to enable the Research team to contribute to the success of all productions
- Lengthy experience in the life insurance industry, gained in an insurance company, financial software or consultancy, investment bank or asset manager
- Extensive practical experience in the application of stochastic modelling techniques to insurers' valuation, capital and risk management problems
- Broad understanding of modern financial mathematics
- In-depth knowledge of insurer's life insurance products, regulation and modelling methodologies
- Time series data and analysis, financial mathematics and stochastic modelling & experience with large financial datasets

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Cameron Hessel
