

Research Engineer Cover Letter

72158 Maurice Mountain North Shelba, NY 98301-0009

Dear Finley Leannon,

I would like to submit my application for the research engineer opening. Please accept this letter and the attached resume.

Previously, I was responsible for input to CSLB Strategy & Business Development Legal and IP departments to support contract negotiations and patents as required.

Please consider my experience and qualifications for this position:

- Working knowledge of development skills in varied language disciplines, hardware and networking aptitude and understanding, IT and financial service industry aware
- Working knowledge of J2EE technologies (Java, JDBC, Applets, Swing, Java Security, JavaScript), WebServices, HTML, XML (XPath), J2ME, PHP, Ajax/DHMTL, WAP, WML and demonstrated creative and innovation skills
- Experience with encryption
- Demonstrate flexibility in dealing with shifting priorities
- Computer Vision based feature development experience
- Image processing and algorithm development expertise
- Experience with turbomachinery design and analysis
- Fundamental understanding of thermodynamics, fluid mechanics, and compressible flow theory

Thank you for considering me to become a member of your team.

Sincerely,

Greer VonRueden
