

Research Financial Analyst Cover Letter

618 Turner Wells East Silviaton, WY 54217

Dear Alexis Kozey,

In response to your job posting for research financial analyst, I am including this letter and my resume for your review.

Previously, I was responsible for information to assist with the implementation of new accounting pronouncements and accounting research related to financial statement presentation and disclosures.

My experience is an excellent fit for the list of requirements in this job:

- Requires knowledge of PC applications
- Innate curiosity demonstrated enthusiasm and willingness to learn
- Eagerness to tackle accounting issues, find solutions and solve problems
- Broad technical accounting knowledge including knowledge of accounting for leases, pensions and other postretirement benefits, treasury activities, equity-based compensation plans, business combinations, restructurings, goodwill, contingencies, discontinued operations and impairments
- Willingness to take on responsibility and challenging work assignments
- Working knowledge of GAAP and SEC reporting requirements
- Strong skills in the use of spreadsheet software
- Experience with Deltek Costpoint software is preferred

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Morgan Larson
