

Research Financial Analyst Cover Letter

5277 Wisoky Field North Octavioport, ND 20252-7477

Dear Greer Blanda,

Please consider me for the research financial analyst opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for support to the school's research enterprise, and acts as custodian in SSE for all research related financial information in coordination with the office of sponsored research, including the support of the SSE research financial compliance function.

Please consider my qualifications and experience:

- Advanced knowledge of grants and contracts and OMB Uniform Guidance 2 CFR Part 200
- Advanced knowledge in the use of financial software applications, relational databases, spreadsheets, and/or word processing
- Experience working with the Bloomberg Terminal and/or similar financial data sources
- Strong data analysis skills (SQL and/or python preferred)
- Skilled in time management to monitor several projects simultaneously
- Prefer grant accounts management experience and understanding of the effort reporting requirements of the Federal Government
- Proven experience designing financial management tools to administer complex awards
- It is highly preferred that the individual have an understanding of Medicare billing rules and functional knowledge of essential National Coverage Decisions and the new CMS Clinical Research Policy

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,
