

Risk Assurance Cover Letter

34829 Rice HarborLake Joaquinstad, RI 00707-5359

Dear Bellamy Nienow,

In response to your job posting for risk assurance, I am including this letter and my resume for your review.

In my previous role, I was responsible for high level direction and strategy for site and Quality Department to maintain and improve the status of compliance to external and internal requirements and regulations, standards and laws.

Please consider my qualifications and experience:

- Team orientation – demonstrates personal investment in the team's success
- Nimble – Energized by ambiguity and complex problems
- Excellent relationship-building, customer service, and problem resolution skills, and is open to feedback and self-aware of development opportunities
- Has an active external and future focus
- Broad understanding of application architecture in order to identify risk and control related issues
- Detailed knowledge of the business(es) supported and various environments utilized
- Strong data analytical and organizational skills with great attention to detail
- Familiarity with IT risk management framework and control assessment process

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Casey Reinger
