

# Rolling Stock Cover Letter

55205 Koelpin Pike Lake Sochester, UT 29530

**Dear Reese Dickens,**

I would like to submit my application for the rolling stock opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for technical guidance in Rolling Stock and Depot Equipment technologies, principles and performance, and interfaces to control systems, Electrical, Signalling, Track and other infrastructure to meet quality and safety standards in order to enhance their performance and improve the engineering capability.

Please consider my experience and qualifications for this position:

- Previous experience in rolling stock testing, commissioning and maintenance project
- Very good knowledge of electrical and mechanical systems
- Experience in the field of trains (Diesel-Electric (AC/AC) Push-Pull) will be advantageous
- Strong Safety awareness and teamwork spirit
- Overall responsibility for all types of tests
- Coordinate with the other SWCs' Test Managers to complete the on-site routine tests of train-borne systems prior to the commencement of ITCs and Test Running
- Test Manager (if lead contractor identified for each test) shall consolidate the information and develop the detail test plan and procedures jointly with the participating contractor(s). Consolidate the test results and submit to the representative appointed by LTA upon the completion of each test
- Lead in the ISF management and close-out

**Thank you for your time and consideration.**

Sincerely,
