

Safety & Health Specialist Cover Letter

910 Pollich SquarePort Jaredtown, CA 85429-7932

Dear Lennon Donnelly,

Please consider me for the safety & health specialist opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for technical support to corporate and branch personnel to ensure compliance with applicable occupational safety and health regulations.

Please consider my qualifications and experience:

- Demonstrate evidence of strong interpersonal skills in order to establish credibility with colleagues and to foster effective working relations with a wide range of senior internal and external contacts
- Able to conduct a thorough and complete root cause analysis on a wide range of complex incidents that can arise, and possess the vigour and passion for learning the true cause of an incident, including behavioural analysis
- Experience in industrial hygiene support and development
- Strong HSE knowledge
- Occupational Safety and Health Administration (OSHA) regulation familiarization/experience such as Process Safety Management (PSM), process hazard analysis, hazard recognition/control, understanding of behavior-based safety (BBS) and Human Organizational Performance (HOP) principles and application
- Program/process development and implementation of new or changing regulations
- Plant based operations experience is preferred
- Successful experience leading, coaching and managing others

I really appreciate you taking the time to review my application for the position of safety & health specialist.

Sincerely,
