

# Safety Scientist Cover Letter

13788 Lonny AvenueNorth Virgil, RI 97091-5132

**Dear Charlie O'Connell,**

I would like to submit my application for the safety scientist opening. Please accept this letter and the attached resume.

Previously, I was responsible for medical review and edits to IND Annual Reports, EU Periodic Benefit Risk Evaluation Reports, EU Periodic Safety Update Reports, EU Development Safety Update Reports, US Periodic Reports.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Global player in a global PV organization
- Experience with safety and pharmacovigilance for clinical trials is preferred
- Experience in team-leadership role is preferred
- Design and interpretation of in vitro experiments utilizing mammalian cell lines and/or primary cells
- Proficiency in laboratory instrumentation and data collection tools
- Solid knowledge of product development process and experience working in cross-functional, global teams
- First-hand experience in handling safety issues related to known target organ toxicities
- Strong team player and excellent networking skills

**Thank you for taking your time to review my application.**

Sincerely,

Ryan Quigley
