

Safety Scientist Cover Letter

84989 Brendan Campsaismouth, MA 23142-8488

Dear Royal Crooks,

I am excited to be applying for the position of safety scientist. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for medical review of safety events (pre-marketing, post-marketing, device and drug) and/or other medically related information per assigned tasks and project specific procedures.

Please consider my experience and qualifications for this position:

- Excellent oral and written communication capabilities, essential for successful contributions to Global PSA
- Highly proficient with data mining / predictive modeling tools such as SAS, JMP, Python, R, proficient in SQL
- Statistical expertise and experience
- Knowledge of statistical graphics and experience with visualization tools such as Tableau
- Experience using various methods to analyze text/unstructured data
- Working knowledge of the drug discovery and development process
- Thorough understanding of nonclinical study protocols and a general familiarity with toxicology study data (including clinical chemistry, hematology, and anatomic pathology)
- High level of attention to detail, including awareness of study and project milestones, deadlines

Thank you for taking your time to review my application.

Sincerely,

Phoenix Ullrich
