

Safety Scientist Cover Letter

450 Marcie Crest West Ginny, AL 18637

Dear Avery Littel,

I would like to submit my application for the safety scientist opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for updates of the assigned drug's safety profile to senior management and recommend pharmacovigilance / risk management activities to BI decision making bodies and the EU QPPV.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience in drug discovery toxicology within the pharmaceutical/biotechnology industry, including working knowledge of data obtained from genotoxicity assays, secondary pharmacology endpoints, hERG assays, and in vitro cytotoxicity assays
- Skilled at hematology, clinical chemistry, cytology, urinalysis, and coagulation assays, immunoassays
- Proficiency in utilization of computerized data collection systems
- Excellent teamwork and communication skills, a pro-active attitude, and innovative and interdisciplinary thinking towards accomplishing goals and solving issues
- BSN/RN, BPharm/RPh/PharmD, BA/BS/MS within Life Sciences
- Possess medical writing skills to produce accurate, concise, medically sound expedited reports
- Experience using a drug safety database to capture adverse events
- Good medical and scientific judgment

Thank you for your time and consideration.

Sincerely,
