Dear Marion McGlynn,

I am excited to be applying for the position of salesforce business analyst. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for guidance and support to Project Managers across the Web organization on SDLC Tool, agile processes, and solutions.

Please consider my experience and qualifications for this position:

- Familiarity with Apex and SQL
- Com integration experience between different business systems working with integration tools
- Personal Attributes • Exceptional attention to detail • Exceptional follow through skills • Able to communicate technical information in a way that is meaningful to a non-technical audience • Able to identify and communicate risks • Able to come up with creative solutions • Able to multitask
- Experience with Salesforce configuration and custom development
- Strong knowledge of Salesforce architecture frameworks, best practices, and business processes
- Experience in documenting current state business processes and wire framing system designs using process flow diagram tools, UML, sequence diagrams, making recommendations for future state improved processes and system designs
- Experience defining the system architecture
- Experience integrating Salesforce with different business systems, working with integration tools (ETL, CPQ, marketing automation, Spotfire, reporting,) and call center technology integration

I really appreciate you taking the time to review my application for the position of salesforce business analyst.

Sincerely,
