Salesforce.com Developer Cover Letter

10604 Tai StravenueO'Connellville, VT 94507-7662

Dear River Kreiger,

I submit this application to express my sincere interest in the salesforce.com developer position.

In the previous role, I was responsible for enterprise level database design and development in a SQL Server application landscape.

My experience is an excellent fit for the list of requirements in this job:

- Able to design complex SOQL and SOSL queries
- Familiar with tools & process for loading and migrating data and code between sandboxes and production Salesforce environments
- This role includes technical design/development, configuration, maintenance, administration and integration of the Salesforce platform
- Demonstrative success with at least two large Salesforce.com integration projects
- Prefer competencies with either Java, C++ or Object Oriented programming languages
- Unique combination of being business-minded and highly analytical while also having a strong and deep technical background in Salesforce.com / Force.com
- Strong proficiency in Salesforce Apex
- Expertise in Salesforce Visualforce Pages

Thank you for your time and consideration.

Sincerely,

Sam Hilpert
