

# Salesforce.com Developer Cover Letter

2076 Karol Divide Roniview, RI 24741-7377

**Dear Dylan Franecki,**

I am excited to be applying for the position of salesforce.com developer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for hands on technical delivery and architecture for complex systems and review for scalability and best practices.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience working in a structured release management environment, including change and release management scrum methodologies for managing high volume work requests
- Experienced in coding APEX Triggers, Classes and Test methods
- Experience with Salesforce.com Web Services APIs, such as SOAP and REST
- Experienced with Debugging methods such as Anonymous Code Block execution and working/writing to System and Developer Logs
- Significant development experience in a SaaS based industry, including business process change management expertise
- Deep domain knowledge of Salesforce.com Security Model, Approval and Custom Workflow creation, Salesforce.com App Distribution Methods
- Salesforce User Interface creation and modification using Visualforce creation and modification of custom APEX pages and field JavaScript field validation
- Creation and modification of Custom Salesforce Objects

**I really appreciate you taking the time to review my application for the position of salesforce.com developer.**

Sincerely,

Dakota Schmitt
