

# Sample Technician Cover Letter

12497 Abernathy RestEast Karolynville, MN 53719

**Dear Story McCullough,**

Please consider me for the sample technician opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for the categorization of OSI electrical and visual failures and apply the correct failure criteria as set forth by the IPC-A-610 industry specification and Micron Global Module Assembly workmanship standard.

My experience is an excellent fit for the list of requirements in this job:

- Demonstrate proficiency in computerized systems
- Maintain all applicable certifications including visual inspection certification and CDA (as applicable)
- Requires knowledge in using various instruments to prepare for and perform tests
- Knowledge of analytical chemistry and skills to critically interpret, and perform techniques and procedures for analysis of biological samples as described in the Standard Operating Procedures
- Skills with operating a wide range of manual and computer-controlled analytical equipment including solid-phase extraction and liquid handling
- Skills to ensure accuracy of chain of custody documentation and legal defensibility of results with attention to detail
- Skills to prepare analytical reagents, solutions, controls and standards
- Skills to maintain laboratory equipment and obtain maximum performance from analytical instruments

**Thank you for your time and consideration.**

Sincerely,

Cameron McCullough
