Dear Haven Reinger,

In response to your job posting for SAP basis, I am including this letter and my resume for your review.

In my previous role, I was responsible for sAP Basis support and technical expertise for the installation and/or enhancement of the SAP systems to meet expanding business requirements.

Please consider my experience and qualifications for this position:

- Support of SOX and License Audits, and coordination of SAP quality checks to ensure efficient use of all SAP HW, SW, OS, and DB
- Upgrade experience from non-Unicode SAP systems to ECC6
- Configuration and Implementation of GRC system with Concepts of VIRSA fire fighters
- Strong/clear verbal & written communication skills
- Excellent knowledge of Database architecture including but not limited to MaxDB/SQL Server/HANA
- Excellent understanding of infrastructure components of a SAP Architecture and experience with Architecture Management
- Practical experience interfacing to Third party technologies such as Vertex
- Analyze the system logs, EWA reports, System Recommendations and recommend/implement improvements

I really appreciate you taking the time to review my application for the position of SAP basis.

Sincerely,

Max Mayert
