

SAP Business Intelligence Cover Letter

721 Jeni Shore East Lacy, IL 22394-8407

Dear Robin Renner,

I submit this application to express my sincere interest in the SAP business intelligence position.

In my previous role, I was responsible for specialist level functional and configuration knowledge in designing SAP solutions in the FI/CO modules of ECC 6.

Please consider my qualifications and experience:

- In depth experience in BEx query development
- Strong functional working knowledge of GFEBs iDOC error resolution and GFEBs Business intelligence data extraction
- Very good programming skills in JavaScript
- BW extractions, Modelling and Reporting using Bex & BO
- Experience with HANA Optimized BW modelling
- Experience in Data provisioning –SDA/SDI ,Modelling in HANA
- Experience in creating SAP HANA information models such as Procedure and Hana Views (Attribute, Analytics and Calculation views) with graphical and SQL Scripting
- Experience in BO reporting tools Lumira, Design Studio, Webi & Analysis office

I really appreciate you taking the time to review my application for the position of SAP business intelligence.

Sincerely,

Denver Jacobi
