SAP Developer Cover Letter

1487 Considine CliffsSouth Ethan, OK 83592-7656

Dear Spencer Wilderman,

I submit this application to express my sincere interest in the SAP developer position.

In the previous role, I was responsible for functional support for reports, interfaces, and enhancements and prepare design documents and detailed specification for ABAP programming.

Please consider my experience and qualifications for this position:

- Message monitoring and troubleshooting in PI/PO and SAP Application systems
- Work closely with BASIS, Security and other Teams to resolve PI/PO connectivity and other system issues
- Experience with Microsoft Sharepoint, HP Quality Assurance Tools (ALM), and core SAP transactions would be desirable
- Knowledge of XML, HTML, .Net, Java and Javascript is highly desirable knowledge of Oracle and/or MS SQL Server
- Excellent written and oral communications are essential
- Eagerness to keep current with emerging technologies and promote their use
- Worked on projects that merge two or more SAP instances into one SAP instance
- Worked in multiple modules in the supply chain modules of SAP doing user exits, BADIs, and enhancements

Thank you for taking your time to review my application.

Sincerely,

Emery Schultz
