

# SAP Developer Cover Letter

109 Harber Vista Wilfredomouth, LA 62786-5028

**Dear Robin Poulos,**

In response to your job posting for SAP developer, I am including this letter and my resume for your review.

Previously, I was responsible for analysis and requirements to the ABAP Development area as it pertains to customization while following standard practices.

Please consider my experience and qualifications for this position:

- Strong command of ABAP and PI
- Hands on experience with Business Objects Enterprise XI 3.1 , Premium Business Objects XI 3.1 & Web Intelligence
- Expertise to read and debug in ABAP
- Able to write functional designs and test new developments
- Able to set up Technical Blueprint and Functional Design
- Able to work on SAP CRM would be an advantage
- Good command of English, French would be an advantage
- Experience in the related field of development (SAP Development Skills, ABAP)

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Emery Von
