SAP Developer Cover Letter

30089 Dustin MountainEast Aubrey, GA 45105

Dear Armani Bartell,

Please consider me for the SAP developer opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for analysis and requirements to the ABAP Development team as it pertains to customization while following standard practices.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Advanced knowledge of developing custom SAP ABAP workbench objects
- Object Oriented programming Experience with ALV Grids - SAP Dialog programming SAP BAPI's
- Passionate about technology and the user experience
- Experience in designing and developing web applications
- Experience in UIX design or development
- Understand the process of software development and implementation
- Basic understanding of Business / Accounting principles
- Support and lead the development effort on SAP BPC projects and enhancements

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Skyler Frami
