

# SAP SCM Cover Letter

135 Irwin PortsKrajcikborough, WI 44635

**Dear Bellamy Walter,**

I am excited to be applying for the position of SAP SCM. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for sAP production support across different business units around the globe, specializing in Materials Management (MM), Plant Maintenance (PM), Warehouse Management (WM) and extended Warehouse Management (eWM) functions.

Please consider my qualifications and experience:

- Will provide estimates on a specific feature/s within a project alone or in collaboration with other SAP team members, the business and the SAP Application Manager
- Demonstrated excellence in conducting, leading Blueprint workshops
- Demonstrated experience in use of ASAP Methodology
- Will provide system relevant information during requirements gathering to ensure the requirements are framed in a manner that enables a solution to be formulated and tested in accordance with the business need and SAP best practices
- Communicates the impacts of new requirements in terms of effort, time and cost based on a solid understanding of current requirements and established business process built in SAP
- Advises and works with other business areas and team members to coordinate interdependencies and resolve issues
- Experience in leading or coordinating SAP projects of various sizes
- Prefer experience with formal software development lifecycle methodologies and development processes, preferably ASAP methodology and processes for SAP implementation

**Thank you in advance for reviewing my candidacy for this position.**
