

SAP SD Consultant Cover Letter

4954 Yvette HarborsNew Octavioville, KS 85305-2283

Dear Phoenix Schuster,

I submit this application to express my sincere interest in the SAP SD consultant position.

In my previous role, I was responsible for business system analysis and process redesign expertise within Sales and Distribution function to translate business requirements into system solutions under strong senior staff supervision.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Fluent Russian, written and oral English
- Experience with SAP Solution Applications (SD-LE)
- Minimum of 2 full life cycle Sales & Distribution (SD) implementations, including project planning, estimation
- Experience with a minimum of one end to end implementation
- Minimum 1 full lifecycle of SD Billing
- Minimum of 2 full life cycle SD implementations, including project planning and estimation
- Experience leading teams, including off-shore teams
- Work on support tickets providing resolution to break-fix issues, and deployment of operational changes

Thank you for your time and consideration.

Sincerely,

Landry Kris
