SAP Security Analyst Cover Letter

6213 Chase TunnelWest Scottmouth, SD 75245-4102

Dear Drew Boehm,

I am excited to be applying for the position of SAP security analyst. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for ongoing maintenance of multiple SAP landscapes - ECC 6.0, Solution Manager, SAP BI, SAP HCM, XI/PI, Enterprise Portals, SAP GRC, Fiori, BSI and other SAP components.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience with Systems, Applications, and Products (SAP) Governance, Risk, and Compliance (GRC) AC (Access Control) and related processes such as SoD (Segregation of Duties), critical action, risk analysis, mitigating control, firefighter, role design
- Experience working with multicultural teams, and projects with global dependencies
- Experience with Sarbanes-Oxley Act (SoX) requirements, Information Technology (IT) controls, and audit procedures
- Knowledge and experience with Systems, Applications, and Products (SAP) functional configuration and development
- Understanding around Systems, Applications, and Products (SAP) Basis activities, and experience with security logs (ST03N, DBTABLOG, SM20)
- Service management and vendor management skills
- Excellent communication skills & technical writing skills
- Basic knowledge on IT SOX Controls

Thank you in advance for reviewing my candidacy for this position.

Sincerely,
