

SAP Security Analyst Cover Letter

7361 Angel Plaza
Reillyshire, AR 51262

Dear River Ryan,

I submit this application to express my sincere interest in the SAP security analyst position.

In my previous role, I was responsible for technical and architectural security guidance in the area of (SAP) Business Applications Management to the SAP Global Security organization, product-/ project teams and functional organizations.

Please consider my experience and qualifications for this position:

- Previous experience of Business Objects Explorer
- Hands on experience with HANA Analytic Privileges
- Experience with installation and configuration of BOBJ software
- Joining an exciting new project to implement SAP GRC AC across the organisation
- Design, build and administration of SAP authorisations including segregation of duties resolution, role creation and maintenance
- Assisting in the definition and standardisation of all SAP security and segregation of duties related policies, procedures, work flows, and control sets based upon industry standard practices, experience, and business needs
- Working in accordance with the incident, problem and change management processes in the authorisations domain
- Role definition, creation and maintenance based on business requirements

Thank you for your time and consideration.

Sincerely,

Bellamy Baumbach
