

Scholar Cover Letter

752 Franklyn Extension Jaskolskihaven, MA 74337-6968

Dear Blake Price,

I submit this application to express my sincere interest in the scholar position.

Previously, I was responsible for a written report to Kiewit University Relations Program within a month of completion of the experience.

Please consider my qualifications and experience:

- Experience providing tutoring for participants, particularly those who score low on the Universities writing and reading and/or math assessments test(s)
- Experience with student supervision including hiring, training, supervision, and performance management
- Graduated from either Wilmington or Shawsheen Technical High School
- Enrolled in either a BS Electrical or Chemical Engineering course of study
- PhD in Molecular Biology, Genomics, Molecular Genetics, or related fields
- Experience in college student services with progressive demonstration and responsibility in project management
- Research experience in field of expertise
- Experience with conventional PCR, real-time PCR, DNA sequence analysis, plant pathogen biology and/or diagnostics of pathogens (fungi, bacteria, virus or nematodes)

Thank you for your time and consideration.

Sincerely,

Spencer Reilly
