

# Scholar Cover Letter

35342 Florine UnderpassNew Rolandehaven, AR 13006-4454

**Dear Indigo Carter,**

I would like to submit my application for the scholar opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for outreach to the campus community via collaboration, trainings, and distribution of relevant information so they are better able to partner with our office in supporting international students.

Please consider my experience and qualifications for this position:

- Experience with diagnostic platform adaptation or evaluation and experience with laboratory procedures of applicable molecular biology and techniques experience with experimental design
- Ph.D in Computational Biology, Bioinformatics or related field
- Procurement and management of computational resources
- Experience with advanced sequence technologies to study plant genomes and characterize genes involved in secondary metabolite accumulation
- Working knowledge of metabolic pathways and database development and management
- PhD in Plant Pathology, Virology or Entomology, or related discipline
- Plant inoculation of viruses using insects and mechanical transmission techniques
- Nucleic acid isolation, analysis, and sequencing

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Marion Haley
