

Scholar Cover Letter

8319 Elba CornerNew Myongstad, KS 47583-9468

Dear Casey Cormier,

Please consider me for the scholar opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for clearly written documentation of all quality assurance performed as required by the Department of Radiation Oncology, the Research Laboratory & Safety Services office, and the Arizona Radiation Regulatory Agency.

My experience is an excellent fit for the list of requirements in this job:

- A record of publication and advising Masters/PhD students
- Knowledge of basic statistical calculations
- Knowledge of Microsoft Office and data collection and abstraction
- Experience designing and maintaining database
- Collaboration as part of a study team
- Working in a capacity which ordinarily requires a Ph.D
- Relevant experience in scholarship and research in special education, school psychology or a related field
- Willingness to take on leadership roles

Thank you for considering me to become a member of your team.

Sincerely,

Rory Lueilwitz
