

Scholar Cover Letter

3503 Jacobs Drive
Angelaborough, FL 05590-6193

Dear Reese Bauch,

I would like to submit my application for the scholar opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for executive level leadership and management of day-to-day operations of the Genomics Sequencing Laboratory and backup support for the Cytogenomics Laboratory including: validation of performance characteristics of sequencing platforms and oversight of all proficiency testing, supervision and management of experienced technical staff and CLIA/CAP accreditation and quality assurance/improvement.

Please consider my qualifications and experience:

- Not be enrolled in any accredited physician residency or Fellowship Program
- Have an active, unrestricted license to practice in the U.S
- Be appropriately board certified or eligible
- Research experience with stem cell engineering and cell and molecular biology
- PhD in Chemical or Thermal Engineering
- Previous scientific, hands-on research experience in chemical looping combustion (pressurized) and/or fluidized bed reactors
- Previous scientific, hands-on research experience with analytical equipment such as GC, XRD, TGA/MS
- Previous experience constructing and operating lab and pilot scale processes

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Brooklyn Terry
