

Scientist Cover Letter

3845 Michelle Mountain South Danette, GA 10816

Dear Avery Wuckert,

I submit this application to express my sincere interest in the scientist position.

In the previous role, I was responsible for science research leadership in statistics and/or machine learning.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Ordering and receipt of reagents and consumables for Molecular Interaction group to ensure constant supply
- Independent, flexible, goal-oriented, detail-orientated, well organized, highly motivated, and a good team player
- Working experience with product development and commercialization processes
- Prior experience in immunoassay product and device development
- PhD in Biological/ Life Sciences or related fields
- Skilled in Molecular Biology, Microbiology, Molecular Genetics, Biotechnology
- Demonstrate problem solving attitude
- Basic knowledge in Bioinformatics highly desirable

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Morgan Bergnaum
