

Scrum Master Cover Letter

9205 Wilderman Track North Darrinchester, NM 34546

Dear Azariah Volkman,

In response to your job posting for scrum master, I am including this letter and my resume for your review.

In my previous role, I was responsible for support to the teams using a servant leadership style and leading by example; personify Lean/Agile values.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Visualizing a release and In-Sprint Progress through the Burn-down charts
- Capacity Planning for sprints focusing on value maximization
- Dependencies management
- Flag significant risks and issues
- Resolve impediments individually and collaboratively with management
- Propose relevant measurements
- Able to coordinate and lead daily stand ups, Sprint planning & grooming sessions, Sprint reviews and retrospectives
- Advanced understanding of the fundamentals of iterative software development in a Java or Ruby on Rails environment

Thank you for considering me to become a member of your team.

Sincerely,

Peyton Hintz
