Dear Emery Hammes,

I am excited to be applying for the position of scrum master. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for support to the Scrum Team using servant leadership style and leading by example.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience of using planning and reporting tools (MS Project, JIRA)
- Experience of facilitating workshops, leading discovery with cross functional team
- Experience of release/iteration planning
- Agile DSDM
- Ensures that high-quality, secure working software is delivered with every iteration
- Prepares and facilitates all iteration planning meetings
- Removes internal roadblocks that prevent the team from reaching full velocity and escalates external blockers to the project team and stakeholders
- Ensures that regular reflection of processes and practices occur via Retrospectives

Thank you for considering me to become a member of your team.

Sincerely,

Avery Harber
