Dear Emerson Marvin,

In response to your job posting for security delivery specialist, I am including this letter and my resume for your review.

In the previous role, I was responsible for governance to the Premium+ security offerings ensuring clients are receiving these value added security & risk management services.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- SQL, Unix, Windows, advanced excel macro/VBA knowledge
- Have deep understand or hands on experience in Mainframe systems
- Proficient in more than one Develop Language like Java, perl, SQL...
- Have deep understand in more than one area in IT Security
- Security related certificate are preferred, like CISSP
- Proven Experience of using open-source tools and commercial tools such as but not limited to Burp Suite, Metasploit, Nessus, Acunetix, Checkmarx, Nexpose with operating systems Windows and Linux
- Certifications from Enterprise Technical Providers depending on particular technical expertise/ focus would be preferable but not mandatory
- Experience in RACF z/OS System Security knowledge

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Gray Lowe
