Dear Landry Borer,

I submit this application to express my sincere interest in the security software position.

Previously, I was responsible for technical leadership to the development team to deliver high quality software and services.

My experience is an excellent fit for the list of requirements in this job:

- Security Policies Governance
- Attacking state of mind
- Familiarity with security attacks and mitigation
- Out-of-the box, abstract thinking
- Knowledge of Intrusion Detection Systems (IDS), Access Control Systems (Lenel), intrusion detection systems and multiple CCTV systems is highly preferred
- Working Knowledge of Federal and State healthcare compliance guidelines and regulations including, but not limited to HIPAA, HITECH, IRS Pub 1075, CMS ARS, ITIL, MITA, FIPS, FISMA, SSA, TCA
- Familiar with System Development Lifecycle under NIST and CMS ARS guidelines
- Solid understanding of the security mechanisms (such as cryptography) and their application to building secure systems (Encryption, Authentication, Digital Certificates etc)

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Royal Heathcote
