

# Senior Admin Cover Letter

69210 Sydney HarborsKuhicborough, MI 12565-5810

**Dear Riley Quitzon,**

In response to your job posting for senior admin, I am including this letter and my resume for your review.

Previously, I was responsible for signals intelligence analysis support to the existing intelligence staffs to support operational, administrative, analytical, planning and reporting functions.

My experience is an excellent fit for the list of requirements in this job:

- Network Services (LDAP, AD, DHCP, DNS)
- OSI Layers 5-7 (Session, Presentation and Application) ( API, HTTP)
- Virtualization (ESX, Openstack)
- Programming languages (Python, Go, Shell, Ruby, Powershell)
- BS/MS Engineering or Computer Science or equivalent experience in satellite ground systems and/or operations
- Network troubleshooting reporting – inventory existing environment for bandwidth capacity and current usage, ports used, cpu/memory
- Assist the business with network knowledge and partnership where necessary
- Deployment of network hardware – installation, configuration, testing and turnup

**Thank you for taking your time to review my application.**

Sincerely,

Tatum Homenick
