Dear Spencer Wiza,

In response to your job posting for senior audit manager, I am including this letter and my resume for your review.

In the previous role, I was responsible for business requirements, engaging in testing and validation activities for to the IT department to ensure timely execution of critical projects, both regulatory and internal.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- They address and resolve various technical issues as they arise, and consult with the other team members to validate that application controls testing and Computer Assisted Audit Techniques (CAAT) testing is efficient and effective
- IS Audit Managers apply their background in auditing and computer systems to verify that any identified IS weaknesses noted are fully addressed and discussed with the government
- Extensive experience in planning and delivering audits and/or specialist skills (eg
- Excellent communication and partner management skills at a Senior Management Level
- Subject-matter-expert knowledge of internal controls, business/information technology risks and/or audit techniques
- Subject-matter-expert knowledge of the regulatory environment for the financial services industry
- Subject-matter-expert knowledge and use of Microsoft Office applications
- Strong management experience and excellent leadership/supervision skills

Thank you in advance for taking the time to read my cover letter and to review my resume.
