

Senior Automation Engineer Cover Letter

2865 Connelly Avenue North Treasa, DE 75720

Dear Ari Sawayn,

Please consider me for the senior automation engineer opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for technical consultation and support in creating standards in Protection Automaton area (RTU, HMI, PLC, SEMT, Node Category Standards, etc.).

My experience is an excellent fit for the list of requirements in this job:

- Experience with motor controls and variable frequency drive control
- Working knowledge of FDA 21 CFR Part 11 for Data Integrity and Electronic Signatures
- Experience with GMP computer system validation, change control, and nonconformance investigations
- Experience with the administration or development of Data Historians such as OSI PI
- Experience participating in or leading nonconformance investigations and inspections
- Experience with Virtualization Technology & Virtual Machine Software
- Experience designing and upgrading industrial or manufacturing automated systems, working in a team environment and working on multiple projects at once
- Knowledge of machining and assembly tools, equipment and techniques

Thank you for considering me to become a member of your team.

Sincerely,

Azariah Beer
