Senior C, .NET Developer Cover Letter

432 Frami MountainLilliamtown, LA 15165-1475

Dear Azariah Hammes,

In response to your job posting for senior C, .NET developer, I am including this letter and my resume for your review.

In my previous role, I was responsible for technical team leadership for our development team in design and development of our next generation of software services.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Knowledge of design patterns and their implementation
- C#/ASP.Net, MCV, HTML, javascript, css, REST
- MS-SQL Statements, T-SQL, Stored Procedures and Triggers
- Designing and developing cloud-based enterprise class software
- Sharing their experience and skills with other team members
- Experience in Agile software development with SCRUM
- Knowledge of Unit testing technics and frameworks
- Effective team player with excellent communication skills in English

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Brooklyn Keeling
