

Senior C, .NET Developer Cover Letter

185 Nathanael Court West Frank, MA 02573-0900

Dear Briar Sanford,

Please consider me for the senior C, .NET developer opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for hands-on day-to-day coaching and support for junior software team personnel in all phases of a project including aspects such as systems architecture, reuse, development processes, technical direction, mentoring of the team.

My experience is an excellent fit for the list of requirements in this job:

- Keep up with trends in terms of standard, technologies or methodologies
- Collaborate with developers, business analysts, architects and business users
- Trading platform experience (related to booking)
- Resilience to stress
- Thorough knowledge of C# .Net, Oracle
- Provide strategic technical direction and system architecture for individual initiatives and technology stack
- Good analytical and problem solving skills for software design and development
- Guide onshore and offshore development resources on day to day tasks such as design discussions, code review

Thank you for your time and consideration.

Sincerely,

Ryan Reynolds
