Senior Front End Developer Cover Letter

98793 Shirley ShoalBerenicehaven, UT 06878-4322

Dear Morgan Howe,

I submit this application to express my sincere interest in the senior front end developer position.

In the previous role, I was responsible for insight into modernizing legacy platforms to the latest and greatest JavaScript technologies.

My experience is an excellent fit for the list of requirements in this job:

- Basic Unix command line experience
- Expert knowledge of JavaScript, object-oriented patterns and related technologies such as DOM, AJAX and HTML5 APIs
- Deep knowledge of Node.js, event loop, asynchronous I/O, design patterns, debugging and operational concerns
- Deep knowledge of HTML5/CSS3, responsive design, cross-browser compatibility and performance optimisations
- Experience working on large-scale single page applications – from designing high-level architecture through to implementation
- Experience writing unit and load tests – rigor in test coverage
- Experience with HTTP, REST and SOA
- Experience with Monitoring tools and technologies

Thank you for considering me to become a member of your team.

Sincerely,

Sawyer Jerde
