# Senior Front End Developer Cover Letter

957 Manuela ShoalHarberfort, AR 07682-6405

**Dear Drew Johnson,**

I am excited to be applying for the position of senior front end developer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for assistance to DEV and QA groups to include: participating in meetings, building out environments, troubleshooting deployment/configuration related problems.

My experience is an excellent fit for the list of requirements in this job:

- Experience with node.js and related node-based tools, the iPhone SDK preferred
- Proven track record of designing high-quality UI/UX systems focused on complex data interaction, analysis and collaboration
- Experience using the Jupyter Notebook platform and/or developing for it
- Experience with other javascript frameworks for building SPAs such as Backbone.js, Require.js, Prototype.js
- Experience working with web visualization and animation libraries
- Experience with agile development process using agile tools (Rally, Jenkins)
- Strong Skills in application level Type-Script/JavaScript
- Experience with modern JavaScript libraries such as Dojo, React, Angular, Ember, Backbone, etc…

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Rowan Botsford
