

Senior Full Stack Developer Cover Letter

988 Jackie Parkway
Joseside, OR 56458

Dear Justice Cassin,

I am excited to be applying for the position of senior full stack developer. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for technical leadership for Junior Software Developers who will be working along with you in the components.

Please consider my qualifications and experience:

- Knowledge of Java EE application development (J2EE-Architecture), J2EE Components and Patterns
- Knowledge of Databases (Oracle, DB2) and SQL and JPA
- Experience with Agile, including using Agile frameworks, such as Scrum and Kanban and working as part of an Agile team of approximately 5–10 people
- Experience with leading or working in an Agile project team
- Experience with DevOps techniques, principals, and culture and the tools and techniques used to support automation of the entire delivery pipeline
- Knowledge of Internet of Things (IoT) technology, frameworks, and tools
- Familiarity with development aiding tools {{such as Bower, Bundler, Rake, Gulp, depending on the technology stack}}
- Experience in Angular 1 JavaScript

I really appreciate you taking the time to review my application for the position of senior full stack developer.

Sincerely,

Spencer Bauch
