Senior .NET Software Engineer Cover Letter

948 Kimbra LodgeSouth Haywood, GA 92934-8519

Dear Morgan Hand,

I would like to submit my application for the senior .NET software engineer opening. Please accept this letter and the attached resume.

Previously, I was responsible for leadership and engage in problem decomposition, software architecture, interface design and clean, efficient, re-usable code implementation.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Familiarity with Messaging APIs, such as Facebook Messenger, Line, Twitter Direct Message
- High School diploma/GED from an accredited institution in Computer Science, Computer Engineering, Software Engineering, Information Systems/Technology or related major field of study
- Experience with programming distributed database applications with synchronized data and files from a central server is strongly preferred
- Experience with Sybase Mobilink database is preferred
- Experience with Telirix is preferred
- Experience with ADO.Net is preferred
- Should be able to make Architectural decisions and also should be able to find solutions by personal research
- Experience with programming PLSQL in Oracle database, is strongly preferred

Thank you for your time and consideration.

Sincerely,

Emerson Volkman
