

Senior .NET Software Engineer Cover Letter

7913 Elias CrestPowlowskifurt, MD 78999-0286

Dear Alexis Bins,

I would like to submit my application for the senior .NET software engineer opening. Please accept this letter and the attached resume.

Previously, I was responsible for stewardship of raw design, UI/UX, mobile app, sensor and interface concepts from idea creation through rapid prototyping and requirements development, helping to define priorities, identify business needs and manage technical risk.

Please consider my experience and qualifications for this position:

- Participate in the requirements gathering, design and development of new systems to be incorporated into and improve the existing processing environment
- Manage multiple assignments and balance workload according to priorities
- Collaborate and mentor cross-functional team members to identify and implement project solutions
- Demonstrated participation in cross-functional projects and coordination of cross-functional teams
- Knowledgeable of SQL
- Excellent debugging, troubleshooting skills on web interface and services
- Hands on experiences in software design and programming for telco applications
- Strong proficiency in .Net, Oracle, MS SQL, MySQL, shell scripts, Perl, Ruby, Python

Thank you for taking your time to review my application.

Sincerely,

Drew Feil
