

Senior .NET Cover Letter

89057 Parisian PointSouth Dorothyport, MD 89455-2832

Dear Quinn Nitzsche,

I am excited to be applying for the position of senior .NET. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for technical leadership and mentoring on projects from beginning to end, with emphasis not only on excellent initial design and/or package experience, but also on creative problem resolution in a multi-disciplinary environment.

Please consider my qualifications and experience:

- Experience developing applications using Microsoft .NET (C#)
- Experience developing and maintaining imaging applications
- Understanding of BPM (Business Process Management) workflow
- Extensive knowledge of the principles, practices, and techniques of computer programming and systems analysis and design, and of all phases of software development and project management
- Skill in leading automation project teams and in organizing, directing and motivating staff to meet project goals and objectives
- Skill in analyzing problems and devising innovative and effective solutions, including collecting and analyzing complex data, evaluating information and business processes, and drawing logical conclusions
- Skill in planning, organizing and coordinating work assignments to effectively meet frequent and/or multiple deadlines, in handling multiple tasks simultaneously, and in managing conflicting priorities and demands
- Skill in effective verbal and/or written communication of complex technical information to people of varying technical backgrounds

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,
