Senior Software Developer Cover Letter

95403 Creola SkywayPort Abrahamland, NV 90322-2091

Dear Oakley Hermann,

I am excited to be applying for the position of senior software developer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for architectural guidance in implementing reusable platform using but not limited to AWS, Docker Swarm, Kubernetes, Microservices, FED, iOS and Android applications.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience in developing Windows Desktop applications and Web applications
- Experience in developing code to interface to RDBMS, particularly SQL Server
- Experience in the migration of C/VB6 projects to .NET/Web is an asset
- Experience in geographic location standards and technologies, such as WMS and GIS, is an asset
- Excellent knowledge of MVVM based front end framework such as Angular
- Very good knowledge of ASP.NET, Web Services, WCF, WSDL
- Knowledge of Winform, VB6, jQuery and OpenLayers API is an asset
- Knowledge of telecommunications standards such TCP/IP, IBM WebSphere MQ, MSMQ, and SMTP/POP3/IMAP is an asset

I really appreciate you taking the time to review my application for the position of senior software developer.

Sincerely,

Rowan Swift
