Senior Software Developer Cover Letter

102 Nobuko RestLangworthstad, CT 28386

Dear Oakley Schultz,

I would like to submit my application for the senior software developer opening. Please accept this letter and the attached resume.

Previously, I was responsible for support, improve and implement Kubernetes internal components and applications on top of multiple clusters and troubleshoot and triage issues as they arise.

My experience is an excellent fit for the list of requirements in this job:

- JSF – primefaces knowledge would be an advantage
- SQL – T-SQL or PL/SQL will be an adventage
- Server side development, good multithreading knowledge, good understanding of the JVM & garbage collectors
- Middleware messaging, preferably with experience on a JMS platform
- Experience developing large scale enterprise applications in a SOA architecture
- Good OO design knowledge
- Experience of TDD or able to demonstrate good knowledge of unit testing and continuous integration
- Experience with Object Oriented Design and Database design

Thank you for considering me to become a member of your team.

Sincerely,

Briar Gleason
