

Senior Software Developer Cover Letter

87490 Homenick Mountain North Esmeraldamouth, OR 99736-3234

Dear Denver Heidenreich,

I submit this application to express my sincere interest in the senior software developer position.

In my previous role, I was responsible for continuous delivery with high software quality using Microservices, Kubernetes, Docker.

My experience is an excellent fit for the list of requirements in this job:

- Solid Understanding of Networking or Security or core software infrastructure technologies (DB, messaging, distributed cache,) Technologies
- Experience in NoSQL databases, data modelling and highly scalable architecture
- Experience with LINQ, ORM Tools, and/or CSS styling preferred
- Experience with .NET and ASP.NET MVC
- Certification, training or skills in operating systems, networks, database design, software design and methodologies • Experience developing in a fast-paced, dynamic Agile environment • Experience with POS software solution development • Experience with PCI/PADSS and other relevant governance and compliance standards • Experience w
- Be focused on building and supporting Rich Client Applications using Web 2.0 Technologies, and SOA Web Services and REST services
- Experience developing J2EE Web Applications
- IBM Process Server - WID 7

Thank you for considering me to become a member of your team.

Sincerely,

Tatum Schuster
